    </application>
</manifest>
```

OUTPUT

A screenshot of an Android application named 'nav2'. The app has a white background with a black header bar containing the app icon and name. Below the header, there are three input fields: 'Name' with the value 'Sneha', 'Reg_no' with the value '202260', and 'Dept' with the value 'MCA'. A 'Submit' button is located below the input fields. The status bar at the top shows the time as 6:33 and the signal strength as 4G.

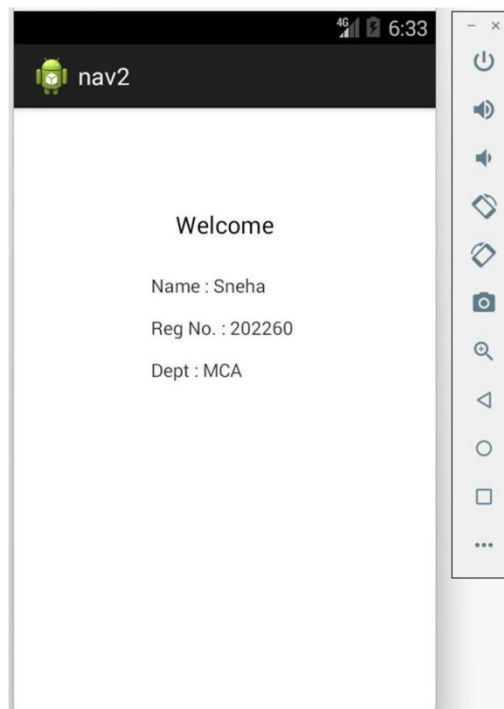

nav2

Name Sneha

Reg_no 202260

Dept MCA

Submit

A screenshot of the same Android application 'nav2' after submission. The screen displays a 'Welcome' message followed by the user's details: 'Name : Sneha', 'Reg No. : 202260', and 'Dept : MCA'. The layout is identical to the registration form, but the input fields are replaced by text labels. The status bar at the top shows the time as 6:33 and the signal strength as 4G.

nav2

Welcome

Name : Sneha

Reg No. : 202260

Dept : MCA
